### Program Review

- **Philosophy** – You have walk before you can run.
- **Numbers** – Most professions have large numbers. CCMA Directory list 235 +/- Cadastral/GIS type positions in 58 counties, of which 24 counties list only 1.
- **Approach** – Best to start by making the Certification Optional.

---

---

---

---

---

---

---

---

### No Test!

- **Point-based** and **self-documented**
- Based on **achievement in 3 categories:**
  - **Education** attainment
  - Professional **experience**
  - **Contributions** to the profession

---

---

---

---

---

---

---

---

## CERTIFICATION LEVELS

### Cadastral Analyst

This would be the general category. Cadastral work at the journeyman level.

### Cadastral/GIS Analyst

This would be the general category with heavy background/experience with GIS in cadastral work. Also, cadastral/GIS work at the journeyman level.

---

---

---

---

---

---

---

---

## CERTIFICATION LEVELS

### Master Cadastral Analyst

This would be the advanced category. More experience and education than the Cadastral Analyst or Cadastral/GIS Analyst.

This level is for the most experienced and those making final decisions as they relate to cadastral mapping.
