Submit your idea or topic for Discussion Agenda

We would like to know if you have any questions or ideas that we should discuss and learn how other counties are handling similar situations. Example: *Nevada County Mapping department hired three SEP (Stimulus Employment Program) employees to help get convert our linen maps into AutoCad. We have had great success with the program but it could end Sept. 24th. With all the cuts how are other counties dealing with fewer employees, but the same workflow we have had for several years?*
